

A/C COMPRESSOR GUARD

COMES WITH SET TEAC2190

A/C COMPRESSOR GUARD

Compressor Guard is a screen filter fitted to the suction side port of the compressor manifold. It stops debris that flushing misses entering and damaging A/C compressors. A/C compressors. OEM approved. No cutting hoses. No new leak points. Warranty claims cut dramatically.

For around £2.50 per job, compressor guard helps protect your profit and your reputation when replacing a new or repaired compressor and only adds seconds to the job. This starter set includes all the tools you need to select, install and remove the screen filters, plus a selection of screens.

Around one third of A/C compressor warranty claims are the result of damage caused by solid particles or debris entering the compressor.

Do the job once!

Fit a Compressor Guard
