

AIR CONDITIONING PRODUCTS GROUP

AIR CONDITIONING TOOLS, EQUIPMENT & CONSUMABLES

2 DAY VEHICLE AIR CONDITIONING SERVICE & REPAIR (VACSAR) WITH C&G 6048 OPTION

ACP Group offers VACSAR training, which has far more content than any accredited short course available in the market place today. You will receive an essential CD with a 114 page manual, diagnostic flow chart and check sheet allowing more time for training, not writing long notes. The CD's content has proved to be invaluable to learners for reference and confidence when first starting and working in the field and assists in the easy flow from learner to professional. **ALL FOR £295.00 + VAT**

On completion of practical & written assessments you can choose to have a City & Guilds 6048 certification **AT A COST OF £68.00 + VAT** the choice is yours! No certification is also an option. **SEE OVER.**

2-day course designed specifically to provide the essential practical knowledge and theory for technicians to carry out service, diagnosis and repairs in a professional, safe and legal manner. It also ensures employers and employees meet their duty of care under COSHH regulations.

COURSE CONTENT.

SAFETY FIRST. Safety when working with refrigerant and air conditioning systems including SDS sheets.

THE LAW. Coshh regulations. Environmental protection act 1990 section 33 & 34 inc waste transfer notes. **FAILURE TO COMPLY CAN LEAD TO A SUBSTANTIAL FINE AND EVEN IMPRISONMENT.**

TRANSPORTATION. Road traffic regulations 1996 inc TREM.

ENVIRONMENTAL IMPACT. Fluorocarbons, Ozone, Global warming & Tewi.

OIL'S Grades and suitability.

REFRIGERANTS. Cylinders, Cylinder capacities, Temperature pressure relationship, Identity & Decanting.

AUTOMOTIVE AIR CONDITIONING TERMS. Understanding air conditioning terms.

VEHICLE AIR CONDITIONING SYSTEMS AND COMPONENTS.

Expansion valve system. Expansion tube (orifice tube) system. **COMPONENTS:** service ports, ball valves, hoses, compressors, condensers, receiver drier (filter drier), fuse plug, expansion valve, evaporators, expansion tube, accumulator, compressor clutch assembly including testing coil, condenser fans, trinary switch, thermal fuse & relief valve.

FINDING LEAKS (safety). OFN testing & UV lamps.

PREPARING SYSTEM, CHARGING AND REMOVING GAUGES (SAFETY).

Vacuumping, charging refrigerant liquid & vapour.

SYSTEM COMPONENTS. Condenser fan mounts, hoses, fittings inc spring-lock, Vauxhall coupling, BLR repairs, Aluminium pipes and fittings.

REPAIRS. Hoses, fittings and Alloy pipes.

MECHANICAL THERMOSTAT.

GAUGES. Fitting, assessing pressures, diagnose readings and removal.

FITTING A NEW OR RECONDITIONED COMPRESSOR.

PRACTICAL REFRIGERATION. Recovery, leak testing methods, oil level and adding, dyes, evacuation (vacuuming), charging, retrofitting, job card and invoicing, other considerations and equipment maintenance.

The afternoon on the second day consists of stripping a compressor . Each learner will then de-gas and re-gas a system, forming part of their practical assessment.

TEST RIG:

Our test rig creates faults that include: blocked or stuck open expansion valve, blocked filter drier, over condensing, faulty compressor and poor air flow over evaporator.

Facilities: Our training centre has state of the art technology and the most up to date tools & equipment for candidates to use. Our lecturer has 28 years experience in the motor industry and is very hands on and when not teaching continues to work on vehicle air conditioning systems.

Need up to date training and tricks of the trade techniques, book a course and we can show you how to excel in the very profitable world of vehicle air conditioning.
